

May 8, 2020

To our Valued Campers,

Like you, we are closely monitoring all updates regarding Covid-19 and have made your safety and health our utmost priority!

With the start of the season officially beginning May 29th, we have already instructed our team to take the strictest measures regarding cleaning, social distancing, and ensuring your stay with us is safe and enjoyable!

Remember, the outdoors are not cancelled! We are blessed with fresh air and outdoor activities that the whole family can enjoy while keeping everyone safe and healthy.

More specifically, we are taking the following measures:

- RV sites are still available, but we will be monitoring the occupancy between each site. Upon check-in, park staff may provide alternatives to encourage additional spacing.
- Multiple daily sanitizations and cleanings of common areas including the clubhouse, exterior/interior of cabins, all public bathrooms/bathhouses, door handles, cooler and ice machine handles, countertops and much more.
- Activities including mini golf, gem mining, water equipment rentals, pedal carts, golf carts etc. will be rented on a per person/family basis and allow time in between for sanitization by park staff.
- Ranger Station (store): We are practicing social distancing both inside and outside the store.
- Registration: We are limiting the interaction between registration and our guests. We are strongly recommending you utilize our express check-in option. Please make sure your balance is paid in full prior to arrival to minimize any direct interaction with our staff.

Thank you for your attention and we hope you have a fun, safe, and healthy visit to our park this summer!

Best regards,

The Yogi Bear's Jellystone Park™ in North Port Huron Team
